Point-touch technique of botulinum toxin injection for treatment of spasmodic dysphonia, 883
Quantitative mapping of effect of botulinum toxin injections in thyroarytenoid muscle, 888

Speech recognition
Comparison of speech recognition ability with different speech processing strategies by Korean cochlear implantees, 659

Sphenopalatine ganglion
Surgical removal of sphenopalatine ganglion. Report of three operations: elaborating original technic to expose pterygopalatine fossa, command internal maxillary artery and its terminals and infraorbital nerve and its branches, 285

Spiral modiolar vein
Spiral modiolar vein: its importance in viral load of inner ear, suppl 157:67

Stenosis
Stenting for pediatric laryngotracheal stenosis, 651

Subdural empyema
Utility of magnetic resonance imaging in detection of subdural empyema, 876

Subglottic pressure
Noninvasive technique for estimating subglottic pressure and laryngeal efficiency, 578

Submucous cleft palate
Minuscule submucous cleft palate. Cadaver study, 417

Superior laryngeal nerve
Characteristics of late responses to superior laryngeal nerve stimulation in humans, 127

Teflon
Injection and removal of Teflon for unilateral vocal cord paralysis, 81

Temporal bone
Anatomy of guinea pig temporal bone, 699
Chondroblastoma of temporal bone. Case report and literature review, 763

Temporomandibular joint
The TMJ scale: including computer program disk and 74-page illustrated manual, 954

Thyroid cartilage
Stable internal fixation of fractures of partially mineralized thyroid cartilage, 76

Thyroid paraganglioma, 293

Tonsillectomy
Current indications for tonsillectomy and adenoidectomy, suppl 155:58

Trachea
Experimental tracheal replacement using revascularized jejunal autograft with implantable Dacron mesh tube, 807
Tracheal agenesis, 560

Tracheobronchomalacia
Pediatric tracheobronchomalacia and major airway collapse, 300

Transgenic mice
Malformation and degeneration in inner ear of *mos* transgenic mice, 430

Transmandibular transpterygoid approach
Transmandibular transpterygoid approach to nasopharynx, parapharyngeal space, and skull base, 383

Trauma
Conservative medical management of traumatic pharyngoesophageal perforations, 209
Penetrating trauma of jugular foramen, 452

Tremor
Rapid voice tremor, or "flutter," in amyotrophic lateral sclerosis, 511

Tubotympanum
Histopathology of tubotympanum of children with otitis media treated with ventilation tubes, 841

Tumor
Does intervention improve natural course of glomus tumors? Series of 108 patients seen in 32-year period, 635

Tumor necrosis factor alpha
Erythromycin inhibition of lipopolysaccharide-stimulated tumor necrosis factor alpha production by human monocytes in vitro, suppl 157:16

Tympanoplasty
Fascia and perichondrium atrophy in tympanoplasty and recurrent middle ear atelectasis, 755

Ulcer
Subglottic ulceration and healing following endotracheal intubation in neonate: morphometric study, 815

Vestibular labyrinth
Expression of intermediate filament proteins in adult human vestibular labyrinth, 479

Vestibule
Vestibular disorders following immune response of endolymphatic sac in guinea pig, suppl 157:54
Vestibulo-ocular compensation following unilateral vestibular deafferentation, 525

Video
Comparison of new telescopic video microlaryngoscopic and standard microlaryngoscopic techniques, 51
Videostroboscopy of human vocal fold paralysis, 567

Viral load
Spiral modiolar vein: its importance in viral load of inner ear, suppl 157:67

Voice
Voice analysis of patients with endoscopically treated early laryngeal carcinoma, 142

Wound healing
Angiogenic growth factors: their effects and potential in soft tissue wound healing, 349
